

REMARKS

The Cross Reference section at the beginning of page 1 of the application has been amended to reflect the dependency to the prior applications. All the prior applications were incorporated by reference at the time of filing of the present application. An Application Data Sheet which reflects the priority information was submitted at the time the application was also filed.

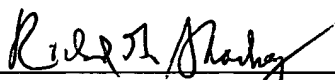

All additional amendments to the specification merely add sequence identifiers, as required by 37 C.F.R. §1.821(d). With these amendments, this application is now in compliance with 37 C.F.R. §§1.821-1.825 and WIPO Standard 25.

Original claims 1-65 are cancelled without prejudice and new claims 66-83 are added by this Preliminary Amendment. Claims 66-83 find support throughout the subject application. Claims 66-83 are the claims that were pending in the parent application. No new matter has been added.

Favorable consideration on the merits is respectfully requested. If the Examiner has any specific questions relating to this application, he or she is respectfully requested to contact the undersigned attorney at (206) 622-4900.

Respectfully submitted,
